Monitoring is the collection and analysis of information about a project or programme, undertaken while the project/programme is ongoing. Evaluation is the periodic, retrospective assessment of an organisation, project or programme that

“Step by Step Guide to Monitoring and Evaluation”

The main challenge in developing a monitoring framework for the Sustainable Development Goals is their expansive scope. The goals cover a vast range of issues spanning human activity on earth: water use, energy, food and agriculture, health, sustainable consumption and production, industrialization, urbanisation, education, inequality, poverty, and gender issues. This scope will require ...
